About SNT

SNT handles maintaining the tech and servers behind the websites of most of the associations at the UT. We also Give technical support to students, and lend out equipment to associations when needed. SNT also maintains the update servers used by most linux users in the region, and a matrix and IRC chatserver used by many associations and students. Most of the funding comes from a LISA contract for serving as a student advice body.

Notes

LISA budget will go down 2.5k per year while the UT financial issues last. 10k is confirmed for 2026. Contractually, we are required to do long overdue server replacements, making for a significant cost. These come from the reserves set aside for this

Things in gray we have little control over

Things in red have had their budgets reduced

Server replacements every 6 years at 25k, means **4.2k/jr** should be reserved for servers

2 november 2024 was the 30 year lustrum of SNT,

as such the reserved money is taken out over 2024 and 2025.
